CITE THIS ARTICLE

Chakrabarty T, Krishna G. Correction to: An overlooked new variety of *Tritaxis glabella* from India with a note on the consequent new synonyms of *Croton lawianus* (Euphorbiaceae). Plant Science Today 9(sp1): 37. <https://doi.org/10.14719/pst.1719>

Although Hooker (1) described a new species, *Dimorphocalyx lawianus* Hook.f., Chakrabarty & Krishna (2) erred in treating this name as a combination based on *Croton lawianus* Nimmo, which itself is a dubious name (3). The correct nomenclature for the Hooker's name is as follows:

Tritaxis glabella (Thwaites) R.Y.Yu & Welzen in Taxon 68(5): 932. 2019 var. ***praetervisa*** Chakrab. & G.Krishna in Pl. Sci. Today 7(3): 303. 2020.

= *Dimorphocalyx lawianus* Hook.f., Fl. Brit. India 5: 404. 1887, *syn. nov.*

Acknowledgements

We thank Dr. John McNeill for nomenclatural advice.
